The Institute for Principle Studies Presents

FIRST LOOK 2017

A Topic Workshop on the 2017/2018 Stoa Team Policy and Lincoln Douglas Debate Resolutions!

This is not a typical debate camp!

There are no lectures on debate theory, no lab groups and no practice rounds. Our focus is on learning about the resolution. The ideal debate season starts with head-knowledge about the resolution. Our speakers will provide this, from a variety of different perspectives, directly to the students. Head-knowledge, resources, and case ideas are the fruit of this concentrated, intensive two-day conference on the 2017-2018 Stoa debate resolutions with separate tracks for each resolution.

Last year's event was a sell-out and people were turned away.

This year we have moved to a larger, nicer facility. Speakers at last year's conference included:

- Policy analysts
- Officials from the USDA
- Representatives from private testing labs
- Agriculture water experts
- Published agriculture Ph.D.'s who were frequently quoted during the debate year!

We expect an equally powerful line-up of speakers this year.
